★ As a result of an amendment to Schedule M of the Bank Act, the chartered banks now record "accumulated appropriation for losses" on the liability side of the balance sheet rather than as a deduction from loans and other assets as they had done in the past. This change has affected certain asset items in the monthly statistics beginning October 31, 1967 and in the weekly statistics beginning November 29, 1967. In order to provide comparable data the following asset items have been revised back to November 24, 1965: Net foreign currency assets; Call and short term loans; Loans in Canadian Dollars — Municipal, Grain dealers, Instalment finance companies, General loans, Other residential mortgages; Other Canadian Securities — Municipal and corporate; All other assets; and Total Canadian and net foreign assets. The term "Accumulated Appropriation for Losses" has been added to monthly table on liabilities.

1. Capital, rest fund and undivided profits as at the latest fiscal year-end.
2. Amortized value. See also footnote 1 on page 7.

3. Includes Canadian issues payable in foreign currency. Accrued interest also included.
4. Total of foreign funds, short-term foreign investments, gold bullion and other foreign currency assets less foreign currency liabilities. Excludes foreign currency securities issued by Canadian borrowers which are included under Canadian securities.
5. Research Department estimates.
6. Securities purchased directly from issuer with a term of less than one year at time of issue are classified as loans.
7. Loans to finance the purchase of Canada Savings Bonds at time of issue.
8. Includes securities guaranteed by provincial governments.
9. Includes bank premises, share of and loans to controlled corporations coin in Canada, Canadian dollars deposits with other banks and other assets.

★ Par suite d'une modification apportée à l'Annexe M de la Loi sur les banques, les "réserves pour pertes" figurent maintenant à une rubrique spéciale au passif des banques au lieu d'être déduites des prêts et autres actifs correspondants comme auparavant. Ce changement a affecté certains postes de l'actif, à compter du 31 octobre 1967 dans le cas des séries statistiques mensuelles et du 29 novembre 1967, dans le cas des séries hebdomadaires. Afin de fournir des données strictement comparables, les chiffres des rubriques suivantes à l'actif ont été révisés à partir du 24 novembre 1965: Avoir net en monnaies étrangères; Prêts sur titres, à vue ou à court terme; Prêts en dollars canadiens aux municipalités, aux négociants en céréales, aux sociétés de financement des ventes à tempérament, Prêts généraux, Autres prêts hypothécaires à la construction domiciliaire; Autres titres canadiens de municipalités et de sociétés; Autres éléments d'actif; Ensemble des avoirs canadiens et des avoirs nets en monnaies étrangères. Une nouvelle rubrique "Réserves pour pertes" figure maintenant au passif.

- Capital social, fonds de prévoyance et bénéfices non répartis à la fin du dernier exercice.
- A leur valeur amortie. Voir aussi le renvoi 1 de la page 8.

- Y compris les titres canadiens payables en monnaies étrangères. Y compris également l'intérêt couru.
- Ensemble des devises, placements à court terme à l'étranger, lingots d'or et autres avoirs en monnaies étrangères - moins les engagements en monnaies étrangères. Les titres émis par des emprunteurs canadiens en monnaies étrangères ne figurent pas à cette rubrique, mais aux diverses rubriques couvrant les titres canadiens.
- Estimations du Service des recherches.
- Les titres achetés directement de l'émetteur et dont l'échéance, lors de l'émission, est à moins d'un an figurent aux bilans bancaires, comme prêts.
- Prêts destinés à financer l'achat d'obligations d'épargne du Canada lors de leur émission.
- Y compris les titres garantis par les gouvernements provinciaux.
- Comprend les immeubles sociaux, les actions des sociétés contrôlées par les banques, les prêts à ces sociétés, les monnaies divisionnaires canadiennes, les dépôts en dollars canadiens dans d'autres banques et autres éléments d'actif.

★ Averages of juridical days except that in accordance with section 71 of the Bank Act of 1954, Bank of Canada notes and Canadian dollar deposit liabilities are averages of the consecutive Wednesdays ending with the second last Wednesday in the previous month.

1. Until June 1967 the required cash reserve ratio was 8% on both demand and notice deposits. For the next eight months the required minimum monthly average on demand deposits was increased by one-half of one per cent per month while that on notice deposits was decreased by one-half of one per cent. Since February 1968 the required ratios have been 12 per cent for demand deposits and 4 per cent for notice deposits as prescribed under the Bank Act. † Revised.

★ Moyenne des jours ouvrables, sauf que pour les billets de la Banque du Canada et les dépôts en dollars canadiens, les chiffres retenus sont, conformément à l'article 71 de la Loi sur les banques, la moyenne des quatre mercredis qui ont précédé immédiatement le dernier mercredi du mois antérieur.

1. Jusqu'en juin 1967, le coefficient statutaire d'encaisse était de 8% des dépôts à vue aussi bien que des dépôts sujets à préavis. Au cours des huit mois qui ont suivi, la moyenne mensuelle minimum applicable aux dépôts à vue a été augmentée de ½ de 1% par mois tandis que celle qui s'applique aux dépôts sujets à préavis a été réduite de ½ de 1% par mois. Ainsi donc, depuis février 1968, tel que le stipule la Loi sur les banques, les coefficients exigés sont de 12% dans le cas des dépôts à vue et de 4% dans le cas des dépôts sujets à préavis. † Chiffres rectifiés.

★ See footnote ★ on page 5 regarding major revisions to these series arising from an amendment to Schedule M of the Bank Act.

1. This table covers total foreign currency assets and liabilities, whether booked in Canada or abroad. For additional detail see next two pages and page 793 in the December 1965 "Statistical Summary".

2. Excludes foreign currency securities issued by Canadian borrowers, which are included in the balance sheet with Canadian securities; also excludes other foreign items, mainly bank premises abroad and investment in controlled companies.

3. Includes foreign notes and coin, gold, and foreign currency float which is frequently a net liability item.

★ Cette série a été l'objet d'une importante révision à la suite d'une modification apportée à l'Annexe M de la Loi sur les banques. Voir la note ★ au bas de la page 6.

1. Le tableau tient compte de l'ensemble des avoirs et engagements en monnaies étrangères, qu'ils aient été comptabilisés sur les livres des sièges et succursales au Canada ou sur ceux des succursales ou agences à l'étranger. Détails supplémentaires aux deux pages suivantes et à la page 793 du Bulletin Statistique de décembre 1965.

2. À l'exclusion des titres émis par des emprunteurs canadiens en monnaies étrangères, ces titres figurant aux bilans des banques comme titres canadiens; à l'exclusion également de certains autres avoirs étrangers, notamment les immeubles des banques à l'étranger et leurs investissements dans des sociétés qu'elles contrôlent.

3. Y compris les monnaies divisionnaires et billets d'autres pays, l'or et les effets en monnaies étrangères en cours de compensation. À noter, cependant, que le solde net de ces effets est souvent créancier.

★★ Foreign currency liabilities include gold certificates; these are distributed throughout U.S. dollar liabilities according to the residence of the holder. Net assets are also affected by this factor since the gold asset is not distributed geographically.

1. Assets and liabilities carried on the books of head offices and branches in Canada.

2. In this classification foreign banks include the foreign agencies and branches of the chartered banks.

3. All foreign notes and coin held by chartered banks in Canada are included with U.S. dollar claims on United States banks although a small part of these are holdings of other foreign currencies.

4. Mainly sterling.

★★ Les certificats de dépôts-or sont considérés comme des engagements en monnaies étrangères. Ils ont été recensés ici comme des engagements en dollars É.U. et répartis selon la résidence des porteurs. L'or détenu en contrepartie ne figure pas dans la répartition géographique des avoirs au tableau ci-dessus et les avoirs nets s'en trouvent donc affectés d'autant.

1. Avoirs et engagements des sièges et succursales au Canada, à l'exclusion de ceux des agences et succursales à l'étranger.

2. Les agences et succursales à l'étranger des banques à charte sont considérées, pour les fins de ce tableau, comme banques étrangères.

3. Tous les billets et pièces métalliques de pays étrangers dans les encaisses des banques à charte au Canada sont assimilés, pour les fins de ce tableau, à des créances en dollars É.-U. sur les banques des États-Unis, y compris, dans une proportion d'ailleurs assez faible, les monnaies d'autres pays.

4. Essentiellement des livres sterling.

★ Les cours sont la moyenne des cours acheteur et vendeur à la clôture. Les rendements sont exprimés en % par année, la date retenue pour le calcul étant l'échéance, lorsque le cours est au-dessous du pair, et la première date où un remboursement par anticipation

pourrait être effectué, lorsque le cours est au-dessus du pair.

- Notes with an original term of one year or less. Does not include short-term borrowing from foreign banks of notes placed with Canadian chartered banks or with parent companies. Banker's acceptances are not included.
- Includes finance company subsidiaries of automobile manufacturers. Quarterly statistics up to March 1965 are as published by the Dominion Bureau of Statistics in "Business Financial Statistics" and intervening months are estimated on the basis of monthly reports received by the Bank of Canada. There is a break in the series following March 1965 owing to the exclusion of the paper of one company and all of the paper for another. In the first case the borrowings of the company were reorganized in May after it merged with a U.S. company, and in the second case the company went into receivership and its paper into default in June. In order to give a consistent series the paper affected by these developments has been excluded in the second set of March figures and in the following months. The difference between the two March figures is accounted for by these adjustments and by some differences in coverage.
- Includes finance company subsidiaries of merchandisers and of manufacturers other than automobile companies. The statistics up to June 1963 are from a survey by the Royal Commission on Banking and Finance published on page 257 of the Commission's Appendix Volume. The series have been brought up to date by the Bank of Canada on the basis of reports from companies known to have issued a very high proportion of total short-term paper outstanding.

- Billets souscrits à un an ou moins. Non compris les billets remis en couverture d'emprunts aux banques (étrangères ou canadiennes) ou aux sociétés mères, ni les acceptations bancaires.
- Y compris les sociétés de financement qui sont la propriété de constructeurs d'automobiles. Jusqu'à mars 1965 inclusivement, les chiffres en fin de trimestre sont tirés de "Business Financial Statistics", publication du Bureau fédéral de la Statistique, et ceux des mois intercalaires sont des estimations de la Banque du Canada, à partir de rapports reçus mensuellement des sociétés intéressées. Les chiffres postérieurs à mars 1965 ne sont pas strictement comparables, les billets émis par deux sociétés ayant été exclus, en partie dans un cas, en totalité dans l'autre. Dans le premier cas, les emprunts furent refinancés en mai à la suite d'une fusion avec une société américaine, tandis que, dans le deuxième cas, la société a été déclarée en faillite en juin et ses billets sont alors tombés en souffrance. Afin de mieux assurer la continuité de cette série statistique, les chiffres indiqués sur une deuxième ligne pour mars et les chiffres des mois suivants ne tiennent pas compte du papier affecté par ces deux événements. La différence entre les deux lignes de chiffres pour mars 1965 provient en outre d'une légère modification de la couverture.
- Y compris les sociétés de financement qui appartiennent à des entreprises commerciales ou à des entreprises industrielles autres que les constructeurs d'automobiles. Les chiffres de juin 1963 et des mois antérieurs ont été tirés d'un relevé publié par la Commission royale d'enquête sur le système bancaire et financier, à la page 257 du volume annexe de son rapport. Par la suite, cette série a été mise à jour par la Banque du Canada à partir de rapports reçus de sociétés qui, dans l'ensemble, émettent une très forte proportion du papier à court terme en circulation.

2. Les chiffres antérieurs à juillet 1960 ne couvrent que le papier émis par quelques grandes sociétés de financement, en dollars canadiens seulement. Depuis juillet 1960, les chiffres sont basés sur les données du B.F.S., qui couvrent le papier émis par l'ensemble de ces sociétés, réparti par devises. A compter de mars 1965, ces chiffres ne sont pas strictement comparables à ceux des séries de la page 32.

4. Non compris les bons du Trésor.

7. Y compris \$53 millions d'obligations émises par l'Hydro-Québec en échange des actions privilégiées d'un certain nombre de sociétés québécoises de services publics.

Non compris le papier commercial à un an ou moins.

11. Toutes les émissions des institutions canadiennes ont été effectuées en dollars canadiens sauf \$2 millions livrés en 1962. Les émissions des prêteurs étrangers se sont élevées à \$20 millions en 1961, \$5 millions en 1964, à \$25 millions et \$7 millions respectivement pour les 1er et 4e trimestres de 1965, \$20 millions en 1966, et \$20 millions en 1967. Il y a eu des amortissements et des rachats tout au cours des années indiquées.

12. Aux prix d'émission.

13. Y compris un faible volume d'actions dont les dividendes sont payables en dollars É.-U.

14. Non compris le rachat par des compagnies d'assurance-vie de leurs propres actions, (article 90A de la Loi sur les compagnies d'assurance canadiennes et britanniques).

15. Y compris le rachat du capital social des sociétés privées d'énergie hydro-électrique acquises par l'Hydro-Québec – \$345 millions en actions ordinaires et \$55 millions en actions privilégiées – et une émission d'actions de Shawinigan Industries Limited au montant de \$44 millions. Sur les \$55 millions en actions privilégiées, \$53 millions ont été échangés contre des obligations garanties par la province de Québec.

16. Y compris les sommes distribuées par la B.C. Power Corporation à ses actionnaires – sur les fonds reçus de la province de la Colombie-Britannique – en paiement d'actions de la B.C. Electric, soit \$87 millions au 4e trimestre de 1961, \$115 millions au 1er trimestre de 1964 et \$2 millions au 1er trimestre de 1965.

NOTE: On pourra obtenir sur simple demande au Service des recherches de la Banque du Canada, Ottawa 4, des tableaux indiquant, pour les titres du gouvernement canadien, les obligations des provinces et des sociétés, le montant des émissions brutes, amortissements et émissions nettes au cours de chaque trimestre, de 1936 à 1966. Peuvent aussi être obtenus des tableaux indiquant, pour les obligations du gouvernement canadien, des provinces, des municipalités et des sociétés, l'encours en fin d'année, de 1935 à 1967, réparti par devises de paiement.

1. Includes small amount of investments (less than \$1.1 million at Nov. 30, 1968).
2. The change in loans outstanding does not necessarily equal the difference between disbursements and repayments because of financial year-end accounting adjustments.
- † Revised.

SOURCE: Banque d'Expansion Industrielle.

1. Y compris quelques participations pour de faibles montants (moins de 1,100,000 dollars au 30 nov. 1968).
2. Les variations de l'encours ne représentent pas toujours exactement la différence entre les avances et les remboursements, par suite des ajustements comptables en fin d'exercice.

** The totals for 1966 are currently unavailable because of a revision in the reporting method of a major respondent. Data subsequent to January 1966 is not comparable with earlier statistics.

1. Repayments are estimated by subtracting the net change in balances outstanding during a period from the paper purchased. The figure therefore also includes cancellations and any other adjustments to the two reported series.
2. New and used vehicles.

** Une grande société ayant modifié sa méthode de comptabiliser ces données au cours de 1966, il est impossible présentement d'établir un total pour cette année. A partir de février 1966, les chiffres publiés sous cette rubrique ne sont pas comparables à ceux des périodes précédentes.

1. Les montants des remboursements sont des estimations, obtenues en soustrayant du montant du papier acheté au cours de chaque période la variation de l'encours durant cette même période. Ces chiffres sont donc affectés dans une certaine mesure par les annulations et autres ajustements portant sur l'une ou l'autre des autres rubriques.
2. Véhicules neufs et d'occasion.

1. The estimates are based on a sample of about 35,000 households and are therefore subject to sampling error which is relatively larger the smaller the estimates.

2. Source: Department of National Defence.

3. The population of the Yukon and N. W. Territories is not surveyed.

4. Prior to January, 1964, components do not add exactly to total employment because the breakdown of female employment between married and other is not available on the latest census bench mark basis.

1. Estimations à partir d'un échantillonnage couvrant environ 35,000 foyers, donc sujettes à une marge d'erreur dont l'importance, pour chaque catégorie, est d'autant plus appréciable que les effectifs sont moindres.

2. Chiffres du ministère de la Défense nationale.

3. Les enquêtes ne comprennent pas la population du Yukon ni celle des Territoires du Nord-Ouest.

4. Le total de ces trois rubriques ne correspond pas exactement, pour les années antérieures à 1964, au chiffre global de l'emploi parce que la répartition, selon leur statut matrimonial, des femmes ayant un emploi n'a pas été révisée, pour ces années, par référence aux données de base du recensement de 1961.

5. Célibataires, veuves ou divorcées.

* Canada's quota in the I.M.F. was set at U.S. \$300 million in Feb. 1947, raised to U.S. \$550 million in Oct. 1959 and to U.S. \$740 million in May 1966 with 25% subscribed in gold and 75% in Canadian dollars.

1. Includes subscription payment in Canadian dollars of U.S. \$142.5 million in May 1966, gold sales to Canada by the I.M.F. of U.S. \$9 million in Dec. 1964, U.S. \$27.5 million in May 1965, and an I.M.F. dividend payment to Canada of U.S. \$2.8 million in October 1968; and the following transactions under the General Arrangements to Borrow — borrowings from Canada by the I.M.F. of U.S. \$15 million in December 1964 and U.S. \$35 million in May 1965 and repayments to Canada by the I.M.F. of U.S. \$15 million in May 1967 and U.S. \$35 million in February 1968.

2. Equals the excess of I.M.F. holdings of Canadian dollars over the sum of outstanding loans under the G.A.B. and 75% of the Canadian quota. This amount in foreign exchange must be repaid against Canadian dollars as required by the Fund's procedures.

3. Equals the excess of the Canadian quota plus outstanding loans under the G.A.B. over I.M.F. holdings of Canadian dollars. This amount in foreign exchange may be drawn essentially automatically against Canadian dollars on statement of balance of payments need. Additional drawings would require further justification.

4. Equals excess of outstanding loans under the G.A.B. plus 75% of the Canadian quota over I.M.F. holdings of Canadian dollars. This amount in foreign exchange may be drawn essentially automatically against Canadian dollars on statement of balance of payments need without incurring an obligation to repay.

* La quote-part du Canada au F.M.I. fut fixée à \$É.-U. 300 millions en février 1947 et portée à \$É.-U. 550 millions en octobre 1959, puis à \$É.-U. 740 millions en mai 1966; 25% ont été souscrits en or et 75% en dollars canadiens.

1. Comprend le versement d'une souscription en dollars canadiens équivalant à \$É.-U. 142.5 millions en mai 1966; les ventes d'or du F.M.I. au Canada, soit: \$É.-U. 9 millions en décembre 1964, \$É.-U. 27.5 millions en mai 1965 et un dividende du F.M.I., soit \$É.-U. 2.8 millions, payé au Canada en octobre 1968; et les opérations suivantes en vertu des Accords Généraux d'Emprunt: prêts du Canada au F.M.I.: \$É.-U. 15 millions en décembre 1964 et \$É.-U. 35 millions en mai 1965, remboursement au Canada par le F.M.I. d'une somme de \$É.-U. 15 millions en mai 1967 et \$É.-U. 35 millions en février 1968.

2. Équivalent à l'avoir en dollars canadiens, après déduction de 75% de la quote-part du Canada et des prêts au Fonds en vertu des Accords Généraux d'Emprunt. Ce montant doit être remboursé en devises contre des dollars canadiens, suivant les règles établies par le Fonds.

3. Équivalent à la quote-part du Canada, plus les prêts en vertu des Accords Généraux d'Emprunt, moins l'avoir du F.M.I. en dollars canadiens. Ce montant peut faire l'objet de tirages en devises contre des dollars canadiens, en principe sur simple déclaration que le Canada en a besoin pour sa balance des paiements. Tous autres tirages doivent être motivés de façon plus explicite.

4. Équivalent à 75% de la quote-part du Canada, plus les prêts au F.M.I. en vertu des Accords Généraux d'Emprunt, moins l'avoir du Fonds en dollars canadiens. Ce montant peut faire l'objet de tirages en devises contre des dollars canadiens, en principe sur simple déclaration que le Canada en a besoin pour sa balance des paiements, sans l'obligation d'en effectuer le remboursement.

★ As a result of an amendment to Schedule M of the Bank Act, the chartered banks now record "accumulated appropriation for losses" on the liability side of the balance sheet rather than as a deduction from loans and other assets as they had done in the past. This change has affected certain asset items in the monthly statistics beginning October 31, 1967 and in the weekly statistics beginning November 29, 1967. In order to provide comparable data the following asset items have been revised back to November 24, 1965: Net foreign currency assets; Call and short term loans; Loans in Canadian Dollars — Municipal, Grain dealers, Instalment finance companies, General loans, Other residential mortgages; Other Canadian Securities — Municipal and corporate; All other assets; and Total Canadian and net foreign assets. The term "Accumulated Appropriation for Losses" has been added to monthly table on liabilities.

1. Capital, rest fund and undivided profits as at the latest fiscal year-end.
2. Amortized value. See also footnote 1 on page 84.

3. Includes Canadian issues payable in foreign currency. Accrued interest also included.
4. Total of foreign funds, short-term foreign investments, gold bullion and other foreign currency assets less foreign currency liabilities. Excludes foreign currency securities issued by Canadian borrowers which are included under Canadian securities.
5. Research Department estimates.
6. Securities purchased directly from issuer with a term of less than one year at time of issue are classified as loans.
7. Loans to finance the purchase of Canada Savings Bonds at time of issue.
8. Includes securities guaranteed by provincial governments.
9. Includes bank premises, share of and loans to controlled corporations coin in Canada, Canadian dollars deposits with other banks and other assets.

★ Par suite d'une modification apportée à l'Annexe M de la Loi sur les banques, les "réserves pour pertes" figurent maintenant à une rubrique spéciale au passif des banques au lieu d'être déduites des prêts et autres actifs correspondants comme auparavant. Ce changement a affecté certains postes de l'actif, à compter du 31 octobre 1967 dans le cas des séries statistiques mensuelles et du 29 novembre 1967, dans le cas des séries hebdomadaires. Afin de fournir des données strictement comparables, les chiffres des rubriques suivantes à l'actif ont été révisés à partir du 24 novembre 1965: Avoir net en monnaies étrangères; Prêts sur titres, à vue ou à court terme; Prêts en dollars canadiens aux municipalités, aux négociants en céréales, aux sociétés de financement des ventes à tempérament, Prêts généraux, Autres prêts hypothécaires à la construction domiciliaire; Autres titres canadiens de municipalités et de sociétés; Autres éléments d'actif; Ensemble des avoirs canadiens et des avoirs nets en monnaies étrangères. Une nouvelle rubrique "Réserves pour pertes" figure maintenant au passif.

1. Capital social, fonds de prévoyance et bénéfices non répartis à la fin du dernier exercice.
2. A leur valeur amortie. Voir aussi le renvoi 1 de la page 85.

3. Y compris les titres canadiens payables en monnaies étrangères. Y compris également l'intérêt couru.

4. Ensemble des devises, placements à court terme à l'étranger, lingots d'or et autres avoirs en monnaies étrangères - moins les engagements en monnaies étrangères. Les titres émis par des emprunteurs canadiens en monnaies étrangères ne figurent pas à cette rubrique, mais aux diverses rubriques couvrant les titres canadiens.

5. Estimations du Service des recherches.

6. Les titres achetés directement de l'émetteur et dont l'échéance, lors de l'émission, est à moins d'un an figurent aux bilans bancaires, comme prêts.

7. Prêts destinés à financer l'achat d'obligations d'épargne du Canada lors de leur émission.

8. Y compris les titres garantis par les gouvernements provinciaux.
9. Comprend les immeubles sociaux, les actions des sociétés contrôlées par les banques, les prêts à ces sociétés, les monnaies divisionnaires canadiennes, les dépôts en dollars canadiens dans d'autres banques et autres éléments d'actif.

★ Averages of juridical days during period indicated except that in accordance with section 71 of the Bank Act of 1954, Bank of Canada notes and Canadian dollar deposit liabilities are averages of the consecutive Wednesdays ending with the second last Wednesday in the previous month.

1. Until June 1967 the required cash reserve ratio was 8% on both demand and notice deposits. For the next eight months the required minimum monthly average on demand deposits was increased by one-half of one per cent per month while that on notice deposits was decreased by one-half of one per cent. Since February 1968 the required ratios have been 12 per cent for demand deposits and 4 per cent for notice deposits as prescribed under the Bank Act. Starting in January 1969 the averaging periods for the required cash reserve ratio comprises; (a) business days up to and including the fifteenth of the month and (b) all the other business days in the month. † Revised.

★ Moyenne des jours ouvrables au cours de la période indiquée, sauf que pour les billets de la Banque du Canada et les dépôts en dollars canadiens, les chiffres retenus sont, conformément à l'article 71 de la Loi sur les banques, la moyenne des quatre mercredis qui ont précédé immédiatement le dernier mercredi du mois antérieur.

1. Jusqu'en juin 1967, le coefficient légal des réserves-encaisse était de 8% des dépôts à vue aussi bien que des dépôts sujets à préavis. Au cours des huit mois qui ont suivi, la moyenne mensuelle minimale applicable aux dépôts à vue a été augmentée progressivement de ½ de 1% par mois tandis que celle qui s'applique aux dépôts sujets à préavis a été réduite de ½ de 1% par mois. Ainsi donc, depuis février 1968, conformément à la Loi sur les banques, les coefficients exigés sont de 12% dans le cas des dépôts à vue et de 4% dans le cas des dépôts sujets à préavis. Depuis janvier 1969, les périodes sur lesquelles sont calculés les coefficients moyens des réserves-encaisse sont, selon le cas: (a) les jours ouvrables du 1^{er} au 15 du mois ou (b) les jours ouvrables du 16 à la fin du mois. † Chiffres rectifiés.

★ In 1967 the Bank Act schedule for the reporting of earnings and expenses was revised. Figures for financial years 1963-66 are shown on a comparable basis in this table.

1. In the period 1965-67 all banks ended their financial years on October 31. Between 1963-64 five banks ended their financial years on October 31, two on November 30 and one on September 30.
2. Excluding realized profits and losses on securities held in investment account which are included in the item "Loss experience not included in other operating expenses", shown below.
3. Including provision for losses based on five-year average loss experience; in 1967 this amounted to \$32.2 million or 0.190% of related loans. Also includes taxes other than income taxes.
4. Before provision for income taxes and appropriations for losses other than those included in "other operating expenses".
5. General and tax-paid appropriations for losses; net after any transfers out of accumulated appropriations for losses to undivided profits or rest account.

★ La formule prévue en annexe à la Loi sur les banques pour le rapport des revenus et des dépenses a été révisée en 1967. Les chiffres des exercices précédents, de 1963 à 1966, sont présentés sur la base de la nouvelle formule.

1. Dates de clôture des exercices, de 1963 à 1964: cinq banques, 30 octobre; deux banques, 30 novembre; une banque, 30 septembre; de 1965 à 1967: 31 octobre dans chaque cas.
2. Non compris les pertes ou les bénéfices réalisés sur les valeurs détenues à titre de placements, qui figurent ci-dessous à la rubrique "Pertes sur les prêts et placements, moins la provision incluse dans les autres frais d'exploitation".
3. Y compris une provision forfaitaire pour pertes, basée sur la moyenne annuelle des pertes au cours des cinq derniers exercices. Cette provision a été de \$32.2 millions en 1967, soit 0.190% des prêts en cause. Y compris aussi les impôts, à l'exception de l'impôt sur le revenu.
4. Non compris la provision pour l'impôt sur le revenu et les provisions pour pertes sauf, dans ce dernier cas, les provisions comprises dans les "Autres frais d'exploitation".
5. Augmentation nette des réserves pour pertes (réserves générales et réserves libras d'impôt), soit les provisions de l'exercice, moins les transferts, au cours de l'exercice, au compte des profits et pertes ou au fonds de prévoyance.

1. Le tableau tient compte de l'ensemble des avoirs et engagements en monnaies étrangères, qu'ils aient été comptabilisés sur les livres des sièges et succursales au Canada ou sur ceux des succursales ou agences à l'étranger. Détails supplémentaires aux deux pages suivantes et à la page 793 du Bulletin Statistique de décembre 1965.

2. A l'exclusion des titres émis par des emprunteurs canadiens en monnaies étrangères, ces titres figurant aux bilans des banques comme titres canadiens; à l'exclusion également de certains autres avoirs étrangers, notamment les immeubles des banques à l'étranger et leurs investissements dans des sociétés qu'elles contrôlent.

3. Y compris les monnaies divisionnaires et billets d'autres pays, l'or et les effets en monnaies étrangères en cours de compensation. A noter, cependant, que le solde net de ces effets est souvent créditeur.

★1. Foreign currency assets and liabilities carried on the books of head offices and branches in Canada. Figures shown have been revised to exclude all gold transactions, i.e. gold and gold loans from assets and gold certificates from liabilities, so that these figures are not directly comparable to previously published data.

2. In this classification foreign banks include the foreign agencies and branches of the chartered banks.

3. All foreign notes and coin held by chartered banks in Canada are included with U.S. dollar claims on United States banks although a small part of these are holdings of other foreign currencies.

4. Mainly sterling.

*1. Avoirs et engagements en monnaies étrangères des sièges et succursales canadiennes seulement. Ces chiffres ont été révisés de façon à exclure, du côté des avoirs, toutes les transactions-or, c'est-à-dire l'or et les prêts-or, et du côté des engagements, les certificats de dépôts-or. Les chiffres figurant au tableau ci-dessus ne peuvent donc être comparés directement à ceux qui ont été publiés antérieurement.

2. Les agences et succursales à l'étranger des banques à charte sont considérées, pour les fins de ce tableau, comme banques étrangères.

3. Tous les billets et pièces métalliques de pays étrangers dans les encaisses des banques à charte au Canada sont assimilés, pour les fins de ce tableau, à des créances en dollars É.-U. sur les banques des États-Unis, y compris, dans une proportion d'ailleurs assez faible, les monnaies d'autres pays.

4. Essentiellement des livres sterling.

- Notes with an original term of one year or less. Does not include short-term borrowing from foreign banks of notes placed with Canadian chartered banks or with parent companies. Banker's acceptances are not included.
- Includes finance company subsidiaries of automobile manufacturers. Quarterly statistics up to March 1965 are as published by the Dominion Bureau of Statistics in "Business Financial Statistics" and intervening months are estimated on the basis of monthly reports received by the Bank of Canada. There is a break in the series following March 1965 owing to the exclusion of the paper of one company and all of the paper for another. In the first case the borrowings of the company were reorganized in May after it merged with a U.S. company, and in the second case the company went into receivership and its paper into default in June. In order to give a consistent series the paper affected by these developments has been excluded in the second set of March figures and in the following months. The difference between the two March figures is accounted for by these adjustments and by some differences in coverage.
- Includes finance company subsidiaries of merchandisers and of manufacturers other than automobile companies. The statistics up to June 1963 are from a survey by the Royal Commission on Banking and Finance published on page 257 of the Commission's Appendix Volume. The series have been brought up to date by the Bank of Canada on the basis of reports from companies known to have issued a very high proportion of total short-term paper outstanding.

- Billets souscrits à un an ou moins. Non compris les billets remis en couverture d'emprunts aux banques (étrangères ou canadiennes) ou aux sociétés mères, ni les acceptations bancaires.
- Y compris les sociétés de financement qui sont la propriété de constructeurs d'automobiles. Jusqu'à mars 1965 inclusivement, les chiffres en fin de trimestre sont tirés de "Business Financial Statistics", publication du Bureau fédéral de la Statistique, et ceux des mois intercalaires sont des estimations de la Banque du Canada, à partir de rapports reçus mensuellement des sociétés intéressées. Les chiffres postérieurs à mars 1965 ne sont pas strictement comparables, les billets émis par deux sociétés ayant été exclus, en partie dans un cas, en totalité dans l'autre. Dans le premier cas, les emprunts furent refinancés en mai à la suite d'une fusion avec une société américaine, tandis que, dans le deuxième cas, la société a été déclarée en faillite en juin et ses billets sont alors tombés en souffrance. Afin de mieux assurer la continuité de cette série statistique, les chiffres indiqués sur une deuxième ligne pour mars et les chiffres des mois suivants ne tiennent pas compte du papier affecté par ces deux événements. La différence entre les deux lignes de chiffres pour mars 1965 provient en outre d'une légère modification de la couverture.
- Y compris les sociétés de financement qui appartiennent à des entreprises commerciales ou à des entreprises industrielles autres que les constructeurs d'automobiles. Les chiffres de juin 1963 et des mois antérieurs ont été tirés d'un relevé publié par la Commission royale d'enquête sur le système bancaire et financier, à la page 257 du volume annexe de son rapport. Par la suite, cette série a été mise à jour par la Banque du Canada à partir de rapports reçus de sociétés qui, dans l'ensemble, émettent une très forte proportion du papier à court terme en circulation.

PAGES 116, 117 et 118

1. Émissions d'institutions (religieuses et autres) au Canada et émissions en dollars canadiens d'emprunteurs étrangers.

PAGES 116 et 117

2. Les chiffres antérieurs à juillet 1960 ne couvrent que le papier émis par quelques grandes sociétés de financement, en dollars canadiens seulement. Depuis juillet 1960, les chiffres sont basés sur les données du B.F.S., qui couvrent le papier émis par l'ensemble de ces sociétés, réparti par devises. A compter de mars 1965, ces chiffres ne sont pas strictement comparables à ceux des séries de la page 32.

PAGE 117

3. Actions de sociétés canadiennes dont les dividendes sont payables en dollars É.-U.

PAGE 118

4. Non compris les bons du Trésor.

PAGE 119

6. Y compris les bons du Trésor des provinces vendus par adjudication – mais non les bons placés directement, presque tous détenus d'ailleurs par les banques (qui les portent à leurs bilans comme prêts) et par les gouvernements provinciaux et fédéral.

6. Non compris les dotations aux fonds d'amortissement.

7. Y compris \$53 millions d'obligations émises par l'Hydro-Québec en échange des actions privilégiées d'un certain nombre de sociétés québécoises de services publics.

8. Non compris les obligations municipales garanties par les provinces (qui figurent déjà à la rubrique "Obligations émises ou garanties par les provinces"), ni les titres vendus directement aux provinces et dont voici une estimation:

| (En millions de dollars) | 1962 | 1963 | 1964 | 1965 | 1966 | 1967 |
|------------------------------|------|------|------|------|------|------|
| Émissions | 71 | 84 | 84 | 123 | 150 | 172 |
| Amortissements et rachats .. | 14 | 18 | 28 | 34 | 37 | 41 |
| Émission nettes | 57 | 65 | 56 | 89 | 113 | 131 |

9. Estimations trimestrielles obtenues en divisant par quatre le montant prévu pour l'année entière, mais en tenant compte des calendriers d'emprunts des grandes municipalités dans la mesure où ils sont connus.

PAGE 120

10. Obligations de sociétés canadiennes payables en dollars canadiens ou en monnaies étrangères – sauf, dans ce dernier cas, lorsque le produit doit en être utilisé à l'étranger – et obligations de sociétés étrangères en dollars canadiens, lorsque le produit doit en être utilisé au Canada. Non compris le papier commercial à un an ou moins.

11. Toutes les émissions des institutions canadiennes ont été effectuées en dollars canadiens sauf \$2 millions livrés en 1962. Les émissions des prêteurs étrangers se sont élevées à \$20 millions en 1961, \$5 millions en 1964, à \$25 millions et \$7 millions respectivement pour les 1er et 4e trimestres de 1965, \$20 millions en 1966, et \$20 millions en 1967. Il y a eu des amortissements et des rachats tout au cours des années indiquées.

12. Aux prix d'émission.

13. Y compris un faible volume d'actions dont les dividendes sont payables en dollars É.-U.

14. Non compris le rachat par des compagnies d'assurance-vie de leurs propres actions, (article 90A de la Loi sur les compagnies d'assurance canadiennes et britanniques).

15. Y compris le rachat du capital social des sociétés privées d'énergie hydro-électrique acquises par l'Hydro-Québec – \$345 millions en actions ordinaires et \$55 millions en actions privilégiées – et une émission d'actions de Shawinigan Industries Limited au montant de \$44 millions. Sur les \$55 millions en actions privilégiées, \$53 millions ont été échangés contre des obligations garanties par la province de Québec.

16. Y compris les sommes distribuées par la B.C. Power Corporation à ses actionnaires – sur les fonds reçus de la province de la Colombie-Britannique – en paiement d'actions de la B.C. Electric, soit \$87 millions au 4e trimestre de 1961, \$115 millions au 1er trimestre de 1964 et \$2 millions au 1er trimestre de 1965.

PAGES 122-123

17. Les filiales qui ont pour fonction de financer les ventes ou les immeubles des sociétés mères figurent à la même rubrique que celles-ci.

NOTE: On pourra obtenir sur simple demande au Service des recherches de la Banque du Canada, Ottawa 4, des tableaux indiquant, pour les titres du gouvernement canadien, les obligations des provinces et des sociétés, le montant des émissions brutes, amortissements et émissions nettes au cours de chaque trimestre, de 1936 à 1966. Peuvent aussi être obtenus des tableaux indiquant, pour les obligations du gouvernement canadien, des provinces, des municipalités et des sociétés, l'encours en fin d'année, de 1935 à 1967, réparti par devises de paiement.

1. Includes small amount of investments (less than \$1.1 million at Dec. 31, 1968).
2. The change in loans outstanding does not necessarily equal the difference between disbursements and repayments because of financial year-end accounting adjustments.

SOURCE: Banque d'Expansion Industrielle.

1. Y compris quelques participations pour de faibles montants (moins de 1,100,000 dollars au 31 déc. 1968).
2. Les variations de l'encours ne représentent pas toujours exactement la différence entre les avances et les remboursements, par suite des ajustements comptables en fin d'exercice.

★ 1967-68 data revised.

** The totals for 1966 are currently unavailable because of a revision in the reporting method of a major respondent. Data subsequent to January 1966 is not comparable with earlier statistics.

1. Repayments are estimated by subtracting the net change in balances outstanding during a period from the paper purchased. The figure therefore also includes cancellations and any other adjustments to the two reported series.

2. New and used vehicles.

† Revised.

★ Chiffres rectifiés, 1967-1968.

** Une grande société ayant modifié sa méthode de comptabiliser ces données au cours de 1966, il est impossible présentement d'établir un total pour cette année. A partir de février 1966, les chiffres publiés sous cette rubrique ne sont pas comparables à ceux des périodes précédentes.

1. Les montants des remboursements sont des estimations, obtenues en soustrayant du montant du papier acheté au cours de chaque période la variation de l'encours durant cette même période. Ces chiffres sont donc affectés dans une certaine mesure par les annulations et autres ajustements portant sur l'une ou l'autre des autres rubriques.

2. Véhicules neufs et d'occasion.

1. The estimates are based on a sample of about 35,000 households and are therefore subject to sampling error which is relatively larger the smaller the estimates.

2. Source: Department of National Defence.

3. The population of the Yukon and N. W. Territories is not surveyed.

4. Prior to January, 1964, components do not add exactly to total employment because the breakdown of female employment between married and other is not available on the latest census bench mark basis.

1. Estimations à partir d'un échantillonnage couvrant environ 35,000 foyers, donc sujettes à une marge d'erreur dont l'importance, pour chaque catégorie, est d'autant plus appréciable que les effectifs sont moindres.

2. Chiffres du ministère de la Défense nationale.

3. Les enquêtes ne comprennent pas la population du Yukon ni celle des Territoires du Nord-Ouest.

4. Le total de ces trois rubriques ne correspond pas exactement, pour les années antérieures à 1964, au chiffre global de l'emploi parce que la répartition, selon leur statut matrimonial, des femmes ayant un emploi n'a pas été révisée, pour ces années, par référence aux données de base du recensement de 1961.

5. Célibataires, veuves ou divorcées.

★ Canada's quota in the I.M.F. was set at U.S. \$300 million in Feb. 1947, raised to U.S. \$550 million in Oct. 1959 and to U.S. \$740 million in May 1966 with 25% subscribed in gold and 75% in Canadian dollars.

1. Includes subscription payment in Canadian dollars of U.S. \$142.5 million in May 1966, gold sales to Canada by the I.M.F. of U.S. \$9 million in Dec. 1964, U.S. \$27.5 million in May 1965, and an I.M.F. dividend payment to Canada of U.S. \$2.8 million in October 1968; and the following transactions under the General Arrangements to Borrow — borrowings from Canada by the I.M.F. of U.S. \$15 million in December 1964 and U.S. \$35 million in May 1965 and repayments to Canada by the I.M.F. of U.S. \$15 million in May 1967 and U.S. \$35 million in February 1968.

2. Equals the excess of I.M.F. holdings of Canadian dollars over the sum of outstanding loans under the G.A.B. and 75% of the Canadian quota. This amount in foreign exchange must be repaid against Canadian dollars as required by the Fund's procedures.

3. Equals the excess of the Canadian quota plus outstanding loans under the G.A.B. over I.M.F. holdings of Canadian dollars. This amount in foreign exchange may be drawn essentially automatically against Canadian dollars on statement of balance of payments need. Additional drawings would require further justification.

4. Equals excess of outstanding loans under the G.A.B. plus 75% of the Canadian quota over I.M.F. holdings of Canadian dollars. ★ La quote-part du Canada au F.M.I. fut fixée à \$É.-U. 300 millions en février 1947 et portée à \$É.-U. 550 millions en octobre 1959, puis à \$É.-U. 740 millions en mai 1966; 25% ont été souscrits en or et 75% en dollars canadiens.

1. Comprend le versement d'une souscription en dollars canadiens équivalant à \$É.-U. 142.5 millions en mai 1966; les ventes d'or du F.M.I. au Canada, soit \$É.-U. 9 millions en décembre 1964, \$É.-U. 27.5 millions en mai 1965 et un dividende du F.M.I., soit \$É.-U. 2.8 millions, payé au Canada en octobre 1968; et les opérations suivantes en vertu des Accords Généraux d'Emprunt: prêts du Canada au F.M.I.: \$É.-U. 15 millions en décembre 1964 et \$É.-U. 35 millions en mai 1965, remboursement au Canada par le F.M.I. d'une somme de \$É.-U. 15 millions en mai 1967 et \$É.-U. 35 millions en février 1968.

2. Équivalent à l'avoir en dollars canadiens, après déduction de 75% de la quote-part du Canada et des prêts au Fonds en vertu des Accords Généraux d'Emprunt. Ce montant doit être remboursé en devises contre des dollars canadiens, suivant les règles établies par le Fonds.

3. Équivalent à la quote-part du Canada, plus les prêts en vertu des Accords Généraux d'Emprunt, moins l'avoir du F.M.I. en dollars canadiens. Ce montant peut faire l'objet de tirages en devises contre des dollars canadiens, en principe sur simple déclaration que le Canada en a besoin pour sa balance des paiements. Tous autres tirages doivent être motivés de façon plus explicite.

4. Équivalent à 75% de la quote-part du Canada, plus les prêts au F.M.I. en vertu des Accords Généraux d'Emprunt, moins l'avoir du Fonds en dollars canadiens. - New gold production measured when it is either (a) sold to the Minister of Finance Exchange Fund account, (b) sold in commercial market by mines or (c) exported directly from mines in Canada in crude form or concentrates. To the extent that there are changes in mine inventories, gold in transit from the mines or in process of refining, this figure differs from reported mine production: on the other hand it corresponds more closely to the timing of receipts arising from sales of newly mined gold.
 - Excluding the gold content of exports of jewellers' sweepings and precious metal scraps which are shown in the export returns.
 - Excluding small amounts of unmanufactured gold, scrap and manufactured forms which are shown under various headings in the import returns.
 - Holdings of the Exchange Fund.
- † Revised.

- Évaluée au moment où l'or est a) cédé au ministre des Finances pour le compte du Fonds des changes, b) livré au marché par les entreprises minières, ou c) exporté directement des mines canadiennes sous forme de minerai ou de concentré. Par suite des variations des stocks d'or aux mines, en route ou aux raffineries, ces chiffres ne concordent pas toujours avec ceux de la production minière retenus par la statistique générale, mais tiennent davantage compte des dates où les mines ont effectivement touché le produit de leurs ventes d'or neuf.
 - Non compris l'or neuf contenu dans les exportations de déchets de joaillerie et autres rebuts de métaux précieux, recensés ailleurs dans la statistique des exportations.
 - A l'exclusion de petites quantités d'or ouvré ou non ouvré et de déchets, recensés ailleurs dans la statistique des importations.

★ As a result of an amendment to Schedule M of the Bank Act, the chartered banks now record "accumulated appropriation for losses" on the liability side of the balance sheet rather than as a deduction from loans and other assets as they had done in the past. This change has affected certain asset items in the monthly statistics beginning October 31, 1967 and in the weekly statistics beginning November 29, 1967. In order to provide comparable data the following asset items have been revised back to November 24, 1965: Net foreign currency assets; Call and short term loans; Loans in Canadian Dollars — Municipal, Grain dealers, Instalment finance companies, General loans, Other residential mortgages; Other Canadian Securities — Municipal and corporate; All other assets; and Total Canadian and net foreign assets. The term "Accumulated Appropriation for Losses" has been added to monthly table on liabilities.

1. Capital, rest fund and undivided profits as at the latest fiscal year-end.
2. Amortized value. See also footnote 1 on page 174.

3. Includes Canadian issues payable in foreign currency. Accrued interest also included.
4. Total of foreign funds, short-term foreign investments, gold bullion and other foreign currency assets less foreign currency liabilities. Excludes foreign currency securities issued by Canadian borrowers which are included under Canadian securities.
5. Research Department estimates.
6. Securities purchased directly from issuer with a term of less than one year at time of issue are classified as loans.
7. Loans to finance the purchase of Canada Savings Bonds at time of issue.
8. Includes securities guaranteed by provincial governments.
9. Includes bank premises, share of and loans to controlled corporations coin in Canada, Canadian dollars deposits with other banks and other assets.

★ Par suite d'une modification apportée à l'Annexe M de la Loi sur les banques, les "réserves pour pertes" figurent maintenant à une rubrique spéciale au passif des banques au lieu d'être déduites des prêts et autres actifs correspondants comme auparavant. Ce changement a affecté certains postes de l'actif, à compter du 31 octobre 1967 dans le cas des séries statistiques mensuelles et du 29 novembre 1967, dans le cas des séries hebdomadaires. Afin de fournir des données strictement comparables, les chiffres des rubriques suivantes à l'actif ont été révisés à partir du 24 novembre 1965: Avoir net en monnaies étrangères; Prêts sur titres, à vue ou à court terme; Prêts en dollars canadiens aux municipalités, aux négociants en céréales, aux sociétés de financement des ventes à tempérament, Prêts généraux, Autres prêts hypothécaires à la construction domiciliaire; Autres titres canadiens de municipalités et de sociétés; Autres éléments d'actif; Ensemble des avoirs canadiens et des avoirs nets en monnaies étrangères. Une nouvelle rubrique "Réserves pour pertes" figure maintenant au passif.

1. Capital social, fonds de prévoyance et bénéfices non répartis à la fin du dernier exercice.
2. A leur valeur amortie. Voir aussi le renvoi 1 de la page 175.

3. Y compris les titres canadiens payables en monnaies étrangères. Y compris également l'intérêt couru.
4. Ensemble des devises, placements à court terme à l'étranger, lingots d'or et autres avoirs en monnaies étrangères - moins les engagements en monnaies étrangères. Les titres émis par des emprunteurs canadiens en monnaies étrangères ne figurent pas à cette rubrique, mais aux diverses rubriques couvrant les titres canadiens.
5. Estimations du Service des recherches.
6. Les titres achetés directement de l'émetteur et dont l'échéance, lors de l'émission, est à moins d'un an figurent aux bilans bancaires, comme prêts.
7. Prêts destinés à financer l'achat d'obligations d'épargne du Canada lors de leur émission.
8. Y compris les titres garantis par les gouvernements provinciaux.
9. Comprend les immeubles sociaux, les actions des sociétés contrôlées par les banques, les prêts à ces sociétés, les monnaies divisionnaires canadiennes, les dépôts en dollars canadiens dans d'autres banques et autres éléments d'actif.

★ Averages of juridical days during period indicated except that in accordance with section 71 of the Bank Act of 1954, Bank of Canada notes and Canadian dollar deposit liabilities are averages of the four consecutive Wednesdays ending with the second last Wednesday in the previous month.

1. Until June 1967 the required cash reserve ratio was 8% on both demand and notice deposits. For the next eight months the required minimum monthly average on demand deposits was increased by one-half of one per cent per month while that on notice deposits was decreased by one-half of one per cent. Since February 1968 the required ratios have been 12 per cent for demand deposits and 4 per cent for notice deposits as prescribed under the Bank Act. Starting in January 1969 the averaging periods for the required cash reserve ratio comprises; (a) business days up to and including the fifteenth of the month and (b) all the other business days in the month. † Revised.

★ Moyenne des jours ouvrables au cours de la période indiquée, sauf que pour les billets de la Banque du Canada et les dépôts en dollars canadiens, les chiffres retenus sont, conformément à l'article 71 de la Loi sur les banques, la moyenne des quatre mercredis qui ont précédé immédiatement le dernier mercredi du mois antérieur.

1. Jusqu'en juin 1967, le coefficient légal des réserves-encaisse était de 8% des dépôts à vue aussi bien que des dépôts sujets à préavis. Au cours des huit mois qui ont suivi, la moyenne mensuelle minimale applicable aux dépôts à vue a été augmentée progressivement de ½ de 1% par mois tandis que celle qui s'applique aux dépôts sujets à préavis a été réduite de ½ de 1% par mois. Ainsi donc, depuis février 1968, conformément à la Loi sur les banques, les coefficients exigés sont de 12% dans le cas des dépôts à vue et de 4% dans le cas des dépôts sujets à préavis. Depuis janvier 1969, les périodes sur lesquelles sont calculés les coefficients moyens des réserves-encaisse sont, selon le cas: (a) les jours ouvrables du 1er au 15 du mois ou (b) les jours ouvrables du 16 à la fin du mois. † Chiffres rectifiés.

★ Cette série a été l'objet d'une importante révision à la suite d'une modification apportée à l'Annexe M de la Loi sur les banques. Voir la note ★ au bas de la page 173.

1. Le tableau tient compte de l'ensemble des avoirs et engagements en monnaies étrangères, qu'ils aient été comptabilisés sur les livres des sièges et succursales au Canada ou sur ceux des succursales ou agences à l'étranger. Détails supplémentaires aux deux pages suivantes et à la page 793 du Bulletin Statistique de décembre 1965.
2. À l'exclusion des titres émis par des emprunteurs canadiens en monnaies étrangères, ces titres figurant aux bilans des banques comme titres canadiens; à l'exclusion également de certains autres avoirs étrangers, notamment les immeubles des banques à l'étranger et leurs investissements dans des sociétés qu'elles contrôlent.
3. Y compris les monnaies divisionnaires et billets d'autres pays, l'or et les effets en monnaies étrangères en cours de compensation. À noter, cependant, que le solde net de ces effets est souvent créditeur.

- Notes with an original term of one year or less. Does not include short-term borrowing from foreign banks of notes placed with Canadian chartered banks or with parent companies. Banker's acceptances are not included.
- Includes finance company subsidiaries of automobile manufacturers. Quarterly statistics up to March 1965 are as published by the Dominion Bureau of Statistics in "Business Financial Statistics" and intervening months are estimated on the basis of monthly reports received by the Bank of Canada. There is a break in the series following March 1965 owing to the exclusion of the paper of one company and all of the paper for another. In the first case the borrowings of the company were reorganized in May after it merged with a U.S. company, and in the second case the company went into receivership and its paper into default in June. In order to give a consistent series the paper affected by these developments has been excluded in the second set of March figures and in the following months. The difference between the two March figures is accounted for by these adjustments and by some differences in coverage.
- Includes finance company subsidiaries of merchandisers and of manufacturers other than automobile companies. The statistics up to June 1963 are from a survey by the Royal Commission on Banking and Finance published on page 257 of the Commission's Appendix Volume. The series have been brought up to date by the Bank of Canada on the basis of reports from companies known to have issued a very high proportion of total short-term paper outstanding.

- Billets souscrits à un an ou moins. Non compris les billets remis en couverture d'emprunts aux banques (étrangères ou canadiennes) ou aux sociétés mères, ni les acceptations bancaires.
- Y compris les sociétés de financement qui sont la propriété de constructeurs d'automobiles. Jusqu'à mars 1965 inclusivement, les chiffres en fin de trimestre sont tirés de "Business Financial Statistics", publication du Bureau fédéral de la Statistique, et ceux des mois intercalaires sont des estimations de la Banque du Canada, à partir de rapports reçus mensuellement des sociétés intéressées. Les chiffres postérieurs à mars 1965 ne sont pas strictement comparables, les billets émis par deux sociétés ayant été exclus, en partie dans un cas, en totalité dans l'autre. Dans le premier cas, les emprunts furent refinancés en mai à la suite d'une fusion avec une société américaine, tandis que, dans le deuxième cas, la société a été déclarée en faillite en juin et ses billets sont alors tombés en souffrance. Afin de mieux assurer la continuité de cette série statistique, les chiffres indiqués sur une deuxième ligne pour mars et les chiffres des mois suivants ne tiennent pas compte du papier affecté par ces deux événements. La différence entre les deux lignes de chiffres pour mars 1965 provient en outre d'une légère modification de la couverture.
- Y compris les sociétés de financement qui appartiennent à des entreprises commerciales ou à des entreprises industrielles autres que les constructeurs d'automobiles. Les chiffres de juin 1963 et des mois antérieurs ont été tirés d'un relevé publié par la Commission royale d'enquête sur le système bancaire et financier, à la page 257 du volume annexe de son rapport. Par la suite, cette série a été mise à jour par la Banque du Canada à partir de rapports reçus de sociétés qui, dans l'ensemble, émettent une très forte proportion du papier à court terme en circulation.

PAGE 206

10. Obligations de sociétés canadiennes payables en dollars canadiens ou en monnaies étrangères — sauf, dans ce dernier cas, lorsque le produit doit en être utilisé à l'étranger — et obligations de sociétés étrangères en dollars canadiens, lorsque le produit doit en être utilisé au Canada. Non compris le papier commercial à un an ou moins.
11. Toutes les émissions des institutions canadiennes ont été effectuées en dollars canadiens. 15. Y compris le rachat du capital social des sociétés privées d'énergie hydro-électrique acquises par l'Hydro-Québec — \$345 millions en actions ordinaires et \$55 millions en actions privilégiées — et une émission d'actions de Shawinigan Industries Limited au montant de \$44 millions. Sur les \$55 millions en actions privilégiées, \$53 millions ont été échangés contre des obligations garanties par la province de Québec.
16. Y compris les sommes distribuées par la B.C. Power Corporation à ses actionnaires — sur les fonds reçus de la province de la Colombie-Britannique — en paiement d'actions de la B.C. Electric, soit \$115 millions au 1^{er} trimestre de 1964 et \$2 millions au 1^{er} trimestre de 1965.

NOTE: On pourra obtenir sur simple demande au Service des recherches de la Banque du Canada, Ottawa 4, des tableaux indiquant, pour les titres du gouvernement canadien, les obligations des provinces et des sociétés, le montant des émissions brutes, amortissements et émissions nettes au cours de chaque trimestre, de 1936 à 1967. Peuvent aussi être obtenus des tableaux indiquant, pour les obligations du gouvernement canadien, des provinces, des municipalités et des sociétés, l'encours en fin d'année, de 1935 à 1968, réparti par devises de paiement.

SOURCE: Industrial Development Bank.

- Includes small amount of investments (less than \$1.1 million at Feb. 28, 1969).
- The change in loans outstanding does not necessarily equal the difference between disbursements and repayments because of financial year-end accounting adjustments.

SOURCE: Banque d'Expansion Industrielle.

- Y compris quelques participations pour de faibles montants (moins de 1,100,000 dollars au 28 fév. 1969).
- Les variations de l'encours ne représentent pas toujours exactement la différence entre les avances et les remboursements, par suite des ajustements comptables en fin d'exercice.

** The totals for 1966 are currently unavailable because of a revision in the reporting method of a major respondent. Data subsequent to January 1966 is not comparable with earlier statistics.

1. Repayments are estimated by subtracting the net change in balances outstanding during a period from the paper purchased. The figure therefore also includes cancellations and any other adjustments to the two reported series.

2. New and used vehicles.

** Une grande société ayant modifié sa méthode de comptabiliser ces données au cours de 1966, il est impossible présentement d'établir un total pour cette année. A partir de février 1966, les chiffres publiés sous cette rubrique ne sont pas comparables à ceux des périodes précédentes.

1. Les montants des remboursements sont des estimations, obtenues en soustrayant du montant du papier acheté au cours de chaque période la variation de l'encours durant cette même période. Ces chiffres sont donc affectés dans une certaine mesure par les annulations et autres ajustements portant sur l'une ou l'autre des autres rubriques.

2. Véhicules neufs et d'occasion.

1. The estimates are based on a sample of about 35,000 households and are therefore subject to sampling error which is relatively larger the smaller the estimates.

2. Source: Department of National Defence.

3. The population of the Yukon and N. W. Territories is not surveyed.

4. Prior to January, 1964, components do not add exactly to total employment because the breakdown of female employment between married and other is not available on the latest census bench mark basis.

5. Includes single, widowed and divorced persons.

1. Estimations à partir d'un échantillonnage couvrant environ 35,000 foyers, donc sujettes à une marge d'erreur dont l'importance, pour chaque catégorie, est d'autant plus appréciable que les effectifs sont moindres.

2. Chiffres du ministère de la Défense nationale.

3. Les enquêtes ne comprennent pas la population du Yukon ni celle des Territoires du Nord-Ouest.

4. Le total de ces trois rubriques ne correspond pas exactement, pour les années antérieures à 1964, au chiffre global de l'emploi parce que la répartition, selon leur statut matrimonial, des femmes ayant un emploi n'a pas été révisée, pour ces années, par référence aux données de base du recensement de 1961.

5. Célibataires, veuves ou divorcées.

* Canada's quota in the I.M.F. was set at U.S. \$300 million in Feb. 1947, raised to U.S. \$550 million in Oct. 1959 and to U.S. \$740 million in May 1966 with 25% subscribed in gold and 75% in Canadian dollars.

1. Includes subscription payment in Canadian dollars of U.S. \$142.5 million in May 1966, gold sales to Canada by the I.M.F. of U.S. \$9 million in Dec. 1964, U.S. \$27.5 million in May 1965, and an I.M.F. dividend payment to Canada of U.S. \$2.8 million in October 1968; and the following transactions under the General Arrangements to Borrow — borrowings from Canada by the I.M.F. of U.S. \$15 million in December 1964 and U.S. \$35 million in May 1965 and repayments to Canada by the I.M.F. of U.S. \$15 million in May 1967 and U.S. \$35 million in February 1968.

2. Equals the excess of I.M.F. holdings of Canadian dollars over the sum of outstanding loans under the G.A.B. and 75% of the Canadian quota. This amount in foreign exchange must be repaid against Canadian dollars as required by the Fund's procedures.

3. Equals the excess of the Canadian quota plus outstanding loans under the G.A.B. over I.M.F. holdings of Canadian dollars. This amount in foreign exchange may be drawn essentially automatically against Canadian dollars on statement of balance of payments need. Additional drawings would require further justification.

4. Equals excess of outstanding loans under the G.A.B. plus 75% of the Canadian quota over I.M.F. holdings of Canadian dollars. This amount in foreign exchange may be drawn essentially automatically against Canadian dollars on statement of balance of payments need without incurring an obligation to repay.

* La quote-part du Canada au F.M.I. fut fixée à \$É.-U. 300 millions en février 1947 et portée à \$É.-U. 550 millions en octobre 1959, puis à \$É.-U. 740 millions en mai 1966; 25% ont été souscrits en or et 75% en dollars canadiens.

1. Comprend le versement d'une souscription en dollars canadiens équivalant à \$É.-U. 142.5 millions en mai 1966; les ventes d'or du F.M.I. au Canada, soit: \$É.-U. 9 millions en décembre 1964, \$É.-U. 27.5 millions en mai 1965 et un dividende du F.M.I., soit \$É.-U. 2.8 millions, payé au Canada en octobre 1968; et les opérations suivantes en vertu des Accords Généraux d'Emprunt: prêts du Canada au F.M.I.: \$É.-U. 15 millions en décembre 1964 et \$É.-U. 35 millions en mai 1965, remboursement au Canada par le F.M.I. d'une somme de \$É.-U. 15 millions en mai 1967 et \$É.-U. 35 millions en février 1968.

2. Équivalent à l'avoir en dollars canadiens, après déduction de 75% de la quote-part du Canada et des prêts au Fonds en vertu des Accords Généraux d'Emprunt. Ce montant doit être remboursé en devises contre des dollars canadiens, suivant les règles établies par le Fonds.

3. Équivalent à la quote-part du Canada, plus les prêts en vertu des Accords Généraux d'Emprunt, moins l'avoir du F.M.I. en dollars canadiens. Ce montant peut faire l'objet de tirages en devises contre des dollars canadiens, en principe sur simple déclaration que le Canada en a besoin pour sa balance des paiements. Tous autres tirages doivent être motivés de façon plus explicite.

4. Équivalent à 75% de la quote-part du Canada, plus les prêts au F.M.I. en vertu des Accords Généraux d'Emprunt, moins l'avoir du Fonds en dollars canadiens. Ce montant peut faire l'objet de tirages en devises contre des dollars canadiens, en principe sur simple déclaration que le Canada en a besoin pour sa balance des paiements, sans l'obligation d'en effectuer le remboursement.

★ Based on Import Commodity Classification introduced by D.B.S. in January 1964. A complete list of the commodity classification numbers included in each category is available on request from the Research Department, Bank of Canada.

■ Arbitrary adjustments have been made to the import commodity detail for the period from the second quarter 1966 to the third quarter 1967 to allow for revisions to the import figures caused by a lag in the receipt by D.B.S. of import documents from an important Canadian port.

1. Comprises conveying, elevating, material handling, construction, excavating, mining, petroleum and natural gas industries equipment.

2. Comprises mainly wood, paper, metalworking, printing, book binding, textiles, leather, food and tobacco industries equipment.

3. Comprises mainly industrial furnaces and linings, other general purpose industrial machinery, communications industry equipment, precision instruments, scientific and medical equipment, hand tools, office equipment and furniture.

4. Includes non-alcoholic beverages.

5. Mainly shipments valued at less than \$200 each and Canadian exports returned.

† Revised.

★ D'après la nomenclature des produits importés adoptée par le B.F.S. en janvier 1964. On pourra obtenir sur simple demande au Service des recherches de la Banque du Canada, à Ottawa, la liste complète des numéros de tous les produits groupés dans chaque catégorie.

■ Par suite de certains retards survenus dans la réception des documents d'importation transmis au B.F.S. par un important port canadien entre avril 1966 et septembre 1967, le montant des importations pour les six trimestres en question a été révisé et les différences ont été réparties arbitrairement entre les diverses catégories de produits importés.

1. Comprend les convoyeurs et le matériel pour levage, manutention, construction, excavation, mines et industries du pétrole et du gaz naturel.

2. Comprend principalement le matériel des secteurs suivants: bois, papier, métallurgie, imprimerie, reliure, textiles, cuir, aliments et tabacs.

3. Comprend principalement: fours industriels et garnitures, autres machines industrielles d'utilité générale, matériels de télécommunication, instruments de précision, matériel scientifique et médical, outils portatifs, matériels et mobiliers de bureau.

4. Y compris les boissons non alcooliques.

5. Principalement les expéditions d'une valeur de moins de \$200 et les exportations canadiennes renvoyées à l'étranger.

★ As a result of an amendment to Schedule M of the Bank Act, the chartered banks now record "accumulated appropriation for losses" on the liability side of the balance sheet rather than as a deduction from loans and other assets as they had done in the past. This change has affected certain asset items in the monthly statistics beginning October 31, 1967 and in the weekly statistics beginning November 29, 1967. In order to provide comparable data the following asset items have been revised back to November 24, 1965: Net foreign currency assets; Call and short term loans; Loans in Canadian Dollars — Municipal, Grain dealers, Instalment finance companies, General loans, Other residential mortgages; Other Canadian Securities — Municipal and corporate; All other assets; and Total Canadian and net foreign assets. The term "Accumulated Appropriation for Losses" has been added to monthly table on liabilities.

1. Capital, rest fund and undivided profits as at the latest fiscal year-end.

2. Amortized value. See also footnote 1 on page 246.

- Includes Canadian issues payable in foreign currency. Accrued interest also included.
- Total of foreign funds, short-term foreign investments, gold bullion and other foreign currency assets less foreign currency liabilities. Excludes foreign currency securities issued by Canadian borrowers which are included under Canadian securities.
- Research Department estimates.
- Securities purchased directly from issuer with a term of less than one year at time of issue are classified as loans.
- Loans to finance the purchase of Canada Savings Bonds at time of issue.
- Includes securities guaranteed by provincial governments.
- Includes bank premises, share of and loans to controlled corporations coin in Canada, Canadian dollars deposits with other banks and other assets.

★ Par suite d'une modification apportée à l'Annexe M de la Loi sur les banques, les "réserves pour pertes" figurent maintenant à une rubrique spéciale au passif des banques au lieu d'être déduites des prêts et autres actifs correspondants comme auparavant. Ce changement a affecté certains postes de l'actif, à compter du 31 octobre 1967 dans le cas des séries statistiques mensuelles et du 29 novembre 1967, dans le cas des séries hebdomadaires. Afin de fournir des données strictement comparables, les chiffres des rubriques suivantes à l'actif ont été révisés à partir du 24 novembre 1965: Avoir net en monnaies étrangères; Prêts sur titres, à vue ou à court terme; Prêts en dollars canadiens aux municipalités, aux négociants en céréales, aux sociétés de financement des ventes à tempérament, Prêts généraux, Autres prêts hypothécaires à la construction domiciliaire; Autres titres canadiens de municipalités et de sociétés; Autres éléments d'actif; Ensemble des avoirs canadiens et des avoirs nets en monnaies étrangères. Une nouvelle rubrique "Réserves pour pertes" figure maintenant au passif.

1. Capital social, fonds de prévoyance et bénéfices non répartis à la fin du dernier exercice.
2. A leur valeur amortie. Voir aussi le renvoi 1 de la page 247.

3. Y compris les titres canadiens payables en monnaies étrangères. Y compris également l'intérêt couru.
4. Ensemble des devises, placements à court terme à l'étranger, lingots d'or et autres avoirs en monnaies étrangères - moins les engagements en monnaies étrangères. Les titres émis par des emprunteurs canadiens en monnaies étrangères ne figurent pas à cette rubrique, mais aux diverses rubriques couvrant les titres canadiens.
5. Estimations du Service des recherches.
6. Les titres achetés directement de l'émetteur et dont l'échéance, lors de l'émission, est à moins d'un an figurent aux bilans bancaires, comme prêts.
7. Prêts destinés à financer l'achat d'obligations d'épargne du Canada lors de leur émission.
8. Y compris les titres garantis par les gouvernements provinciaux.
9. Comprend les immeubles sociaux, les actions des sociétés contrôlées par les banques, les prêts à ces sociétés, les monnaies divisionnaires canadiennes, les dépôts en dollars canadiens dans d'autres banques et autres éléments d'actif.

★ Averages of juridical days during period indicated except that in accordance with section 71 of the Bank Act of 1954, Bank of Canada notes and Canadian dollar deposit liabilities are averages of the four consecutive Wednesdays ending with the second last Wednesday in the previous month.

1. Until June 1967 the required cash reserve ratio was 8% on both demand and notice deposits. For the next eight months the required minimum monthly average on demand deposits was increased by one-half of one per cent per month while that on notice deposits was decreased by one-half of one per cent. Since February 1968 the required ratios have been 12 per cent for demand deposits and 4 per cent for notice deposits as prescribed under the Bank Act. Starting in January 1969 the averaging periods for the required cash reserve ratio comprises: (a) business days up to and including the fifteenth of the month and (b) all the other business days in the month. † Revised.

★ Moyenne des jours ouvrables au cours de la période indiquée, sauf que pour les billets de la Banque du Canada et les dépôts en dollars canadiens, les chiffres retenus sont, conformément à l'article 71 de la Loi sur les banques, la moyenne des quatre mercredis qui ont précédé immédiatement le dernier mercredi du mois antérieur.

1. Jusqu'en juin 1967, le coefficient légal des réserves-encaisse était de 8% des dépôts à vue aussi bien que des dépôts sujets à préavis. Au cours des huit mois qui ont suivi, la moyenne mensuelle minimale applicable aux dépôts à vue a été augmentée progressivement de ½ de 1% par mois tandis que celle qui s'applique aux dépôts sujets à préavis a été réduite de ½ de 1% par mois. Ainsi donc, depuis février 1968, conformément à la Loi sur les banques, les coefficients exigés sont de 12% dans le cas des dépôts à vue et de 4% dans le cas des dépôts sujets à préavis. Depuis janvier 1969, les périodes sur lesquelles sont calculés les coefficients moyens des réserves-encaisse sont, selon le cas: (a) les jours ouvrables du 1er au 15 du mois ou (b) les jours ouvrables du 16 à la fin du mois. † Chiffres rectifiés.

2. Excludes foreign currency securities issued by Canadian borrowers, which are included in the balance sheet with Canadian securities; also excludes other foreign items, mainly bank premises abroad and investment in controlled companies.

3. Includes foreign notes and coin, gold, and foreign currency float which is frequently a net liability item.

★ Cette série a été l'objet d'une importante révision à la suite d'une modification apportée à l'Annexe M de la Loi sur les banques. Voir la note ★ au bas de la page 245.

1. Le tableau tient compte de l'ensemble des avoirs et engagements en monnaies étrangères, qu'ils aient été comptabilisés sur les livres des sièges et succursales au Canada ou sur ceux des succursales ou agences à l'étranger. Détails supplémentaires aux deux pages suivantes et à la page 793 du Bulletin Statistique de décembre 1965.

2. A l'exclusion des titres émis par des emprunteurs canadiens en monnaies étrangères, ces titres figurant aux bilans des banques comme titres canadiens; à l'exclusion également de certains autres avoirs étrangers, notamment les immeubles des banques à l'étranger et leurs investissements dans des sociétés qu'elles contrôlent.

3. Y compris les monnaies divisionnaires et billets d'autres pays, l'or et les effets en monnaies étrangères en cours de compensation. A noter, cependant, que le solde net de ces effets est souvent créancier.

★ Les cours sont la moyenne des cours acheteur et vendeur à la clôture. Les rendements sont exprimés en % par année, la date retenue pour le calcul étant l'échéance, lorsque le cours est au-dessous du pair, et la première date où un remboursement par anticipation

pourrait être effectué, lorsque le cours est au-dessus du pair.

- Notes with an original term of one year or less. Does not include short-term borrowing from foreign banks of notes placed with Canadian chartered banks or with parent companies. Banker's acceptances are not included.
- Includes finance company subsidiaries of automobile manufacturers. Quarterly statistics up to March 1965 are as published by the Dominion Bureau of Statistics in "Business Financial Statistics" and intervening months are estimated on the basis of monthly reports received by the Bank of Canada. There is a break in the series following March 1965 owing to the exclusion of the paper of one company and all of the paper for another. In the first case the borrowings of the company were reorganized in May after it merged with a U.S. company, and in the second case the company went into receivership and its paper into default in June. In order to give a consistent series the paper affected by these developments has been excluded in the second set of March figures and in the following months. The difference between the two March figures is accounted for by these adjustments and by some differences in coverage.
- Includes finance company subsidiaries of merchandisers and of manufacturers other than automobile companies. The statistics up to June 1963 are from a survey by the Royal Commission on Banking and Finance published on page 257 of the Commission's Appendix Volume. The series have been brought up to date by the Bank of Canada on the basis of reports from companies known to have issued a very high proportion of total short-term paper outstanding.

- Billets souscrits à un an ou moins. Non compris les billets remis en couverture d'emprunts aux banques (étrangères ou canadiennes) ou aux sociétés mères, ni les acceptations bancaires.
- Y compris les sociétés de financement qui sont la propriété de constructeurs d'automobiles. Jusqu'à mars 1965 inclusivement, les chiffres en fin de trimestre sont tirés de "Business Financial Statistics", publication du Bureau fédéral de la Statistique, et ceux des mois intercalaires sont des estimations de la Banque du Canada, à partir de rapports reçus mensuellement des sociétés intéressées. Les chiffres postérieurs à mars 1965 ne sont pas strictement comparables, les billets émis par deux sociétés ayant été exclus, en partie dans un cas, en totalité dans l'autre. Dans le premier cas, les emprunts furent refinancés en mai à la suite d'une fusion avec une société américaine, tandis que, dans le deuxième cas, la société a été déclarée en faillite en juin et ses billets sont alors tombés en souffrance. Afin de mieux assurer la continuité de cette série statistique, les chiffres indiqués sur une deuxième ligne pour mars et les chiffres des mois suivants ne tiennent pas compte du papier affecté par ces deux événements. La différence entre les deux lignes de chiffres pour mars 1965 provient en outre d'une légère modification de la couverture.
- Y compris les sociétés de financement qui appartiennent à des entreprises commerciales ou à des entreprises industrielles autres que les constructeurs d'automobiles. Les chiffres de juin 1963 et des mois antérieurs ont été tirés d'un relevé publié par la Commission royale d'enquête sur le système bancaire et financier, à la page 257 du volume annexe de son rapport. Par la suite, cette série a été mise à jour par la Banque du Canada à partir de rapports reçus de sociétés qui, dans l'ensemble, émettent une très forte proportion du papier à court terme en circulation.

PAGE 276

4. Non compris les bons du Trésor.

PAGE 278

10. Obligations de sociétés canadiennes payables en dollars canadiens ou en monnaies étrangères — sauf, dans ce dernier cas, lorsque le produit doit en être utilisé à l'étranger — et obligations de sociétés étrangères en dollars canadiens, lorsque le produit doit en être utilisé au Canada. Non compris le papier commercial à un an ou moins.

11. Toutes les émissions des institutions canadiennes ont été effectuées en dollars canadiens. Les émissions des prêteurs étrangers se sont élevées à \$5 millions en 1964, à \$25 millions et \$7 millions respectivement pour les 1^{er} et 4^e trimestres de 1965, \$20 millions en 1966, et \$20 millions en 1967. Il y a eu des amortissements et des rachats tout au cours des années indiquées.

12. Aux prix d'émission.

13. Y compris un faible volume d'actions dont les dividendes sont payables en dollars É.-U.

14. Non compris le rachat par des compagnies d'assurance-vie de leurs propres actions, (article 90A de la Loi sur les compagnies d'assurance canadiennes et britanniques).

15. Y compris le rachat du capital social des sociétés privées d'énergie hydro-électrique acquises par l'Hydro-Québec — \$345 millions en actions ordinaires et \$55 millions en actions privilégiées — et une émission d'actions de Shawinigan Industries Limited au montant de \$44 millions. Sur les \$55 millions en actions privilégiées, \$53 millions ont été échangés contre des obligations garanties par la province de Québec.

16. Y compris les sommes distribuées par la B.C. Power Corporation à ses actionnaires — sur les fonds reçus de la province de la Colombie-Britannique — en paiement d'actions de la B.C. Electric, soit \$115 millions au 1^{er} trimestre de 1964 et \$2 millions au 1^{er} trimestre de 1965.

NOTE: On pourra obtenir sur simple demande au Service des recherches de la Banque du Canada, Ottawa 4, des tableaux indiquant, pour les titres du gouvernement canadien, les obligations des provinces et des sociétés, le montant des émissions brutes, amortissements et émissions nettes au cours de chaque trimestre, de 1936 à 1967. Peuvent aussi être obtenus des tableaux indiquant, pour les obligations du gouvernement canadien, des provinces, des municipalités et des sociétés, l'encours en fin d'année, de 1935 à 1968, réparti par devises de paiement.

SOURCE: Industrial Development Bank.

1. Includes small amount of investments (less than \$1.1 million at Feb. 28, 1969).

2. The change in loans outstanding does not necessarily equal the difference between disbursements and repayments because of financial year-end accounting adjustments.

SOURCE: Banque d'Expansion Industrielle.

1. Y compris quelques participations pour de faibles montants (moins de 1,100,000 dollars au 28 fév. 1969).

2. Les variations de l'encours ne représentent pas toujours exactement la différence entre les avances et les remboursements, par suite des ajustements comptables en fin d'exercice.

** The totals for 1966 are currently unavailable because of a revision in the reporting method of a major respondent. Data subsequent to January 1966 is not comparable with earlier statistics.

1. Repayments are estimated by subtracting the net change in balances outstanding during a period from the paper purchased. The figure therefore also includes cancellations and any other adjustments to the two reported series.
2. New and used vehicles.

** Une grande société ayant modifié sa méthode de comptabiliser ces données au cours de 1966, il est impossible présentement d'établir un total pour cette année. À partir de février 1966, les chiffres publiés sous cette rubrique ne sont pas comparables à ceux des périodes précédentes.

1. Les montants des remboursements sont des estimations, obtenues en soustrayant du montant du papier acheté au cours de chaque période la variation de l'encours durant cette même période. Ces chiffres sont donc affectés dans une certaine mesure par les annulations et autres ajustements portant sur l'une ou l'autre des autres rubriques.
2. Véhicules neufs et d'occasion.

1. The estimates are based on a sample of about 35,000 households and are therefore subject to sampling error which is relatively larger the smaller the estimates.

2. Source: Department of National Defence.

3. The population of the Yukon and N. W. Territories is not surveyed.

4. Prior to January, 1964, components do not add exactly to total employment because the breakdown of female employment between married and other is not available on the latest census benchmark basis.

5. Includes single, widowed and divorced persons.

- Estimations à partir d'un échantillonnage couvrant environ 35,000 foyers, donc sujettes à une marge d'erreur dont l'importance, pour chaque catégorie, est d'autant plus appréciable que les effectifs sont moindres.
- Chiffres du ministère de la Défense nationale.
- Les enquêtes ne comprennent pas la population du Yukon ni celle des Territoires du Nord-Ouest.

- Le total de ces trois rubriques ne correspond pas exactement, pour les années antérieures à 1964, au chiffre global de l'emploi parce que la répartition, selon leur statut matrimonial, des femmes ayant un emploi n'a pas été révisée, pour ces années, par référence aux données de base du recensement de 1961.

- Célibataires, veuves ou divorcées.

★ Canada's quota in the I.M.F. was set at U.S. \$300 million in Feb. 1947, raised to U.S. \$550 million in Oct. 1959 and to U.S. \$740 million in May 1966 with 25% subscribed in gold and 75% in Canadian dollars.

1. Includes subscription payment in Canadian dollars of U.S. \$142.5 million in May 1966, gold sales to Canada by the I.M.F. of U.S. \$9 million in Dec. 1964, U.S. \$27.5 million in May 1965, and an I.M.F. dividend payment to Canada of U.S. \$2.8 million in October 1968; and the following transactions under the General Arrangements to Borrow — borrowings from Canada by the I.M.F. of U.S. \$15 million in December 1964 and U.S. \$35 million in May 1965 and repayments to Canada by the I.M.F. of U.S. \$15 million in May 1967 and U.S. \$35 million in February 1968.

2. Equals the excess of I.M.F. holdings of Canadian dollars over the sum of outstanding loans under the G.A.B. and 75% of the Canadian quota. This amount in foreign exchange must be repaid against Canadian dollars as required by the Fund's procedures.

3. Equals the excess of the Canadian quota plus outstanding loans under the G.A.B. over I.M.F. holdings of Canadian dollars. This amount in foreign exchange may be drawn essentially automatically against Canadian dollars on statement of balance of payments need. Additional drawings would require further justification.

4. Equals excess of outstanding loans under the G.A.B. plus 75% of the Canadian quota over I.M.F. holdings of Canadian dollars. This amount in foreign exchange may be drawn essentially automatically against Canadian dollars on statement of balance of payments need without incurring an obligation to repay.

★ La quote-part du Canada au F.M.I. fut fixée à \$É.-U. 300 millions en février 1947 et portée à \$É.-U. 550 millions en octobre 1959, puis à \$É.-U. 740 millions en mai 1966; 25% ont été souscrits en or et 75% en dollars canadiens.

1. Comprend le versement d'une souscription en dollars canadiens équivalant à \$É.-U. 142.5 millions en mai 1966; les ventes d'or du F.M.I. au Canada, soit: \$É.-U. 9 millions en décembre 1964, \$É.-U. 27.5 millions en mai 1965 et un dividende du F.M.I., soit \$É.-U. 2.8 millions, payé au Canada en octobre 1968; et les opérations suivantes en vertu des Accords Généraux d'Emprunt: prêts du Canada au F.M.I.: \$É.-U. 15 millions en décembre 1964 et \$É.-U. 35 millions en mai 1965, remboursement au Canada par le F.M.I. d'une somme de \$É.-U. 15 millions en mai 1967 et \$É.-U. 35 millions en février 1968.

2. Équivalent à l'avoir en dollars canadiens, après déduction de 75% de la quote-part du Canada et des prêts au Fonds en vertu des Accords Généraux d'Emprunt. Ce montant doit être remboursé en devises contre des dollars canadiens, suivant les règles établies par le Fonds.

3. Équivalent à la quote-part du Canada, plus les prêts en vertu des Accords Généraux d'Emprunt, moins l'avoir du F.M.I. en dollars canadiens. Ce montant peut faire l'objet de tirages en devises contre des dollars canadiens, en principe sur simple déclaration que le Canada en a besoin pour sa balance des paiements. Tous autres tirages doivent être motivés de façon plus explicite.

4. Équivalent à 75% de la quote-part du Canada, plus les prêts au F.M.I. en vertu des Accords Généraux d'Emprunt, moins l'avoir du Fonds en dollars canadiens. Ce montant peut faire l'objet de tirages en devises contre des dollars canadiens, en principe sur simple déclaration que le Canada en a besoin pour sa balance des paiements, sans l'obligation d'en effectuer le remboursement.
